Dear Parents,

To minimize the risk of a head injury, it is required that each child wear a protective helmet which has met certain standards for retention, impact and penetration by a sharp object. Our company offers such helmets, each of which bears the seal of the **Safety Equipment Institute (SEI)-ASTM**. This assures you, as parents, that your child has the best available protection for his or her head.

For correct measurement, measure loosely (do not pull measuring tape tight!) around widest part of the head, above the brow and around the head. If measurement is questioned, go to the next larger size.
